

NOVEMBER 2015 FLES NEWS

Students love expressing preferences. Kindergarten students have been talking about liking candy, ice cream, chocolate and favorite pets! They can tell you when they are sick, and encourage a friend who isn't feeling well. They can tell the story of the Three Little Pigs in French now! And they learned two French songs: a chicken on a wall, and do you know how to plant cabbages?

Students also love to talk about their families. First and second graders presented their family posters to the class, and learned a beautiful song about courage, liberty and love for our families. They can answer questions about the classroom, and about the weather, and they can say the today's date. They learned a fun French song about weather!

Third and fourth graders can also describe themselves and their families in French. They can talk about the weather, and fourth graders can talk and write about what they do in various kinds of weather. They learned a fun song about all the crazy things we see at Halloween! They explored a French-language website about Halloween in Quebec. Fourth graders are starting a new play based on the story of Chicken Little!
